IIT MADRAS
INDIAN INSTITUTE OF TECHNOLOGY MADRAS

PRAMOD TRADERS

- A B2C hardware retail shop serving contractors, builders, plumbers, homeowners.
- Has a strong customer base and is focusing on acquiring new customers.
- Product Categories: Electrical, Sanitary, Hardware tools, PVC products.
- Reputation: Known for quality products and services, establishing customer trust.
- Is run by the owner and has one employee for help.

PROBLEMS TO SOLVE

01

Acquiring New Customers for Growth

To diversify the customer portfolio.

02

Frequent stockouts leading to lost customers

To improve Customer retention and reduce stockout costs.

03

Identification of best-selling and profitable products

For Revenue growth and sales performance enhancement.

04

Resolving Errors in Inventory Data Management

To enhance Data accuracy for Inventory Efficiency.

DATA ANALYSIS PROCESS

Data Collection

- Tally ERP data collection.
- Inventory Data
- Daily Sales Data
- From: April-22 to January-23

Data Cleaning

- Removing empty and repeating data.
- Adjusting for loose products
- Taking 620 products (Out of 1000)

Analysis

- Done using MS Excel
- Pivot Table Analysis
- Using VLOOKUP function

Final Analysis

- Volume Analysis
- Weekly Sales Analysis
- Monthly Sales Analysis
- Category/Item Analysis

Results

- Understanding graphs and trends.
- Providing suggestions for enhancement.

MOVEMENT ANALYSIS

- Product movement follows a strong pareto distribution.
- 75% of volume is determined by 15% of products.
- Top 10 products contribute to 30% of Sales Volume.
- Most of which is contributed by Electrical products.

MONTHLY ANALYSIS

Units Sold

- July and May has highest Hardware sales.
- June, July, October, December and January had the highest Electrical sales.
- This shows a correlation with building stages of house.

Revenue Generated

- Electrical goods are the most revenue generating products.
- June, September to December are high revenue period.
- April is the least business friendly month.

WEEKLY ANALYSIS

Units Sold

- Most customers are Mid-Week buyer/payers.
- Both Hardware and Electrical products are in heavy demand on Wednesday and Thursday.
- Restocking period can be scheduled with this.

Revenue Generated

- Weekly Revenue follow a Normal distribution.
- Sunday has decent movement but less revenue.

CATEGORY ANALYSIS

Units Sold

Revenue Generated

■ Sainitry ■ PVC ■ PAINT ■ HARDWARE ■ ELECTRICAL ■ Cpvc ■ C P Fitting

- Electrical goods dominate the product categories
- Monday, Tuesday and Saturday have high PVC/Cpvc sales.
- Hardware products are in heavy demand on Wednesday and Thursday. As well as in months of May, July and October.
- Category of product sold also have a relation with the building period of houses.

SWOT ANALYSIS

Strengths

S

- Reputation for Quality
- Specialization in Categories
- Location Advantage: Located on highway
- Owners direct involvement ensures hands-on management and decision-making.

Weaknesses

W

- The business faces issues related to inventory management.
- With only one employee, the business might struggle to manage the store efficiently during peak hours.

Opportunities

O

- Implementing better inventory management strategies based on data analysis.
- Utilizing high-revenue days like Wednesdays and Thursdays for promotions can attract more customers.

Threats

T

- The hardware retail sector can be competitive, with other stores for the same customer base with similar products.
- Economic fluctuations can impact purchasing behavior and sales as business is dependent on House development.

RECOMMENDATIONS

BUSINESS PLAN

- Prioritize Top Performers (Top 20%)
- Maintain Regular Inventory and **restock on Monday**
- Bundle Hardware goods with PVC products in months of **April** and **June** with Discount.
- Maintaining proper account of loosely sold product and location of customers.
- Planning according to the construction of house and stocking up accordingly.

BUSINESS PROPOSAL

- Run marketing campaigns and promotions on Wednesday and Thursday.
- Network with new builders and contractors to gain insights of new construction sites and localities.
- Advertise in developing region to attract potential customers.
- Train the employee to use MS Excel and record loose sales data.

THANK YOU
